## BUILD STRONG PARTNERSHIPS

- **Help implement projects** ranging from basic research to pre-industrial development by proposing the best consortium
- **Facilitate interactions** between industry and researchers by coordinating R&D needs

## PROVIDE ACCESS TO EXPERTISE AND FACILITIES

- **Take ideas further and make them grow within the TRL scale** to become more attractive for industry

## DRIVE OPEN INNOVATION

- **Allow industry to solve its challenges quickly** by addressing its issues to the association's members

## HELP ACCESS EU FUNDS

- **Support applications for European funds** through guidance and support in the writing and the submission of project proposals

## LABEL AND SUPPORT INTERESTS

- **Deliver a label** to projects aligned with the objectives of the Association
- **Represent members' interests** at EU level and in organisations that support R&D activities in mineral processing and extractive metallurgy

## PUSH EDUCATION AND KNOWLEDGE FORWARD

- **Organise** annual Tech Tours, dedicated seminars and workshops
- **Contribute to training and education actions** by supporting events and providing experts on-demand
