

## LABNet

The idea of LABNet is to create a cooperation platform for Prometia Members analytical laboratories. Through LABNet, we want to exchange experiences, recognize and solve analytical problems, and cooperate in joint R&D projects.

### Who we are?

Analytical Chemistry Center is a research laboratory working within the Łukasiewicz – Institute of Non-Ferrous Metals, located in Gliwice, Poland. We deal with analytics in a wide range of areas, including developing analytical methods, solving analytical problems and producing certified reference materials.

### The network objectives

- Creating a platform for the exchange of knowledge, experience and tips between laboratories
- Networking of laboratory managers and employees
- Organizing and conducting interlaboratory comparisons
- Cooperation in development of internal analytical standards
- Cooperation in development and exchange of reference materials and certified reference materials
- Cooperation to deliver complete analysis in case of lack of some methods in a laboratory
- Common help in equipment management and utility issues
- Development of common complete analytical offer for research projects
- Actions for increasing of skills and knowledge of laboratory staff by internships

If you have any other ideas of objectives or activities, let us know.

We believe that together we can achieve more, to strive for the highest standards in laboratory operations.

### How to Join?

In the first period of network development, we want to get to know each other better in order to adapt our activities to our common needs.

**Please, fill the form:** [FORM](#)

We will contact you with the information about next steps.

### Nearest planned activities:

The on-line kick-off meeting of the LABNet laboratories.
