

# From Lab to Industry

A European network of pilot plants under PROMETIA, METNET provides access to state-of-the-art facilities and multidisciplinary expertise to scale up mineral processing, metallurgy, and recycling technologies.

## WHAT WE OFFER

Pilot-scale testing from raw material to finished product

Advanced equipment across mineral, hydro-, and pyrometallurgy

Integrated process development and optimization

Cross-sector knowledge from leading European research centers

Support for sustainable, circular and low-carbon material value chains

Join PROMETIA to access METNET's facilities and accelerate the scale-up of your technologies.

## AREAS OF EXPERTISE

Mineral processing: crushing, grinding, flotation, separation

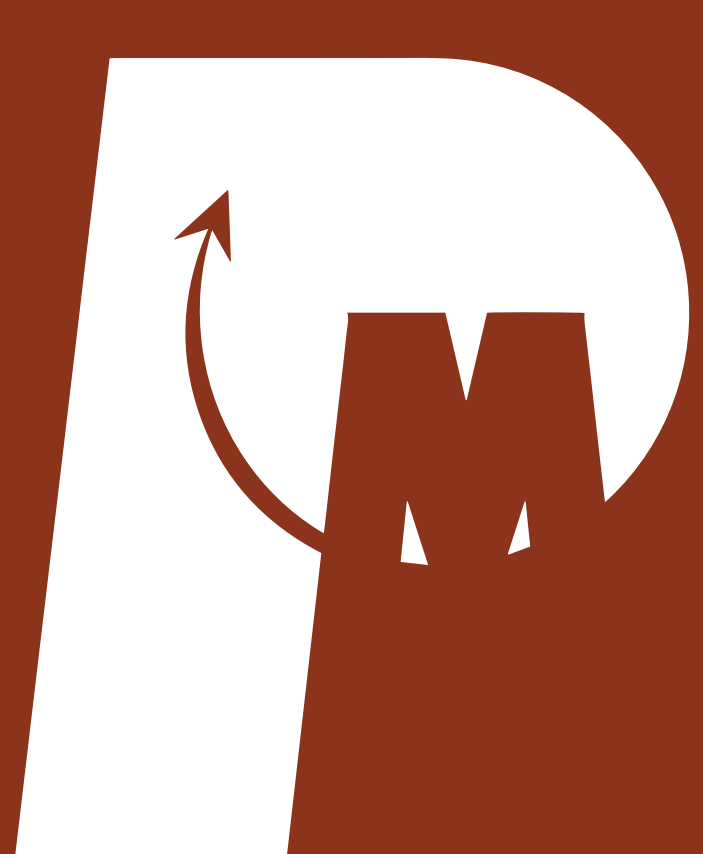

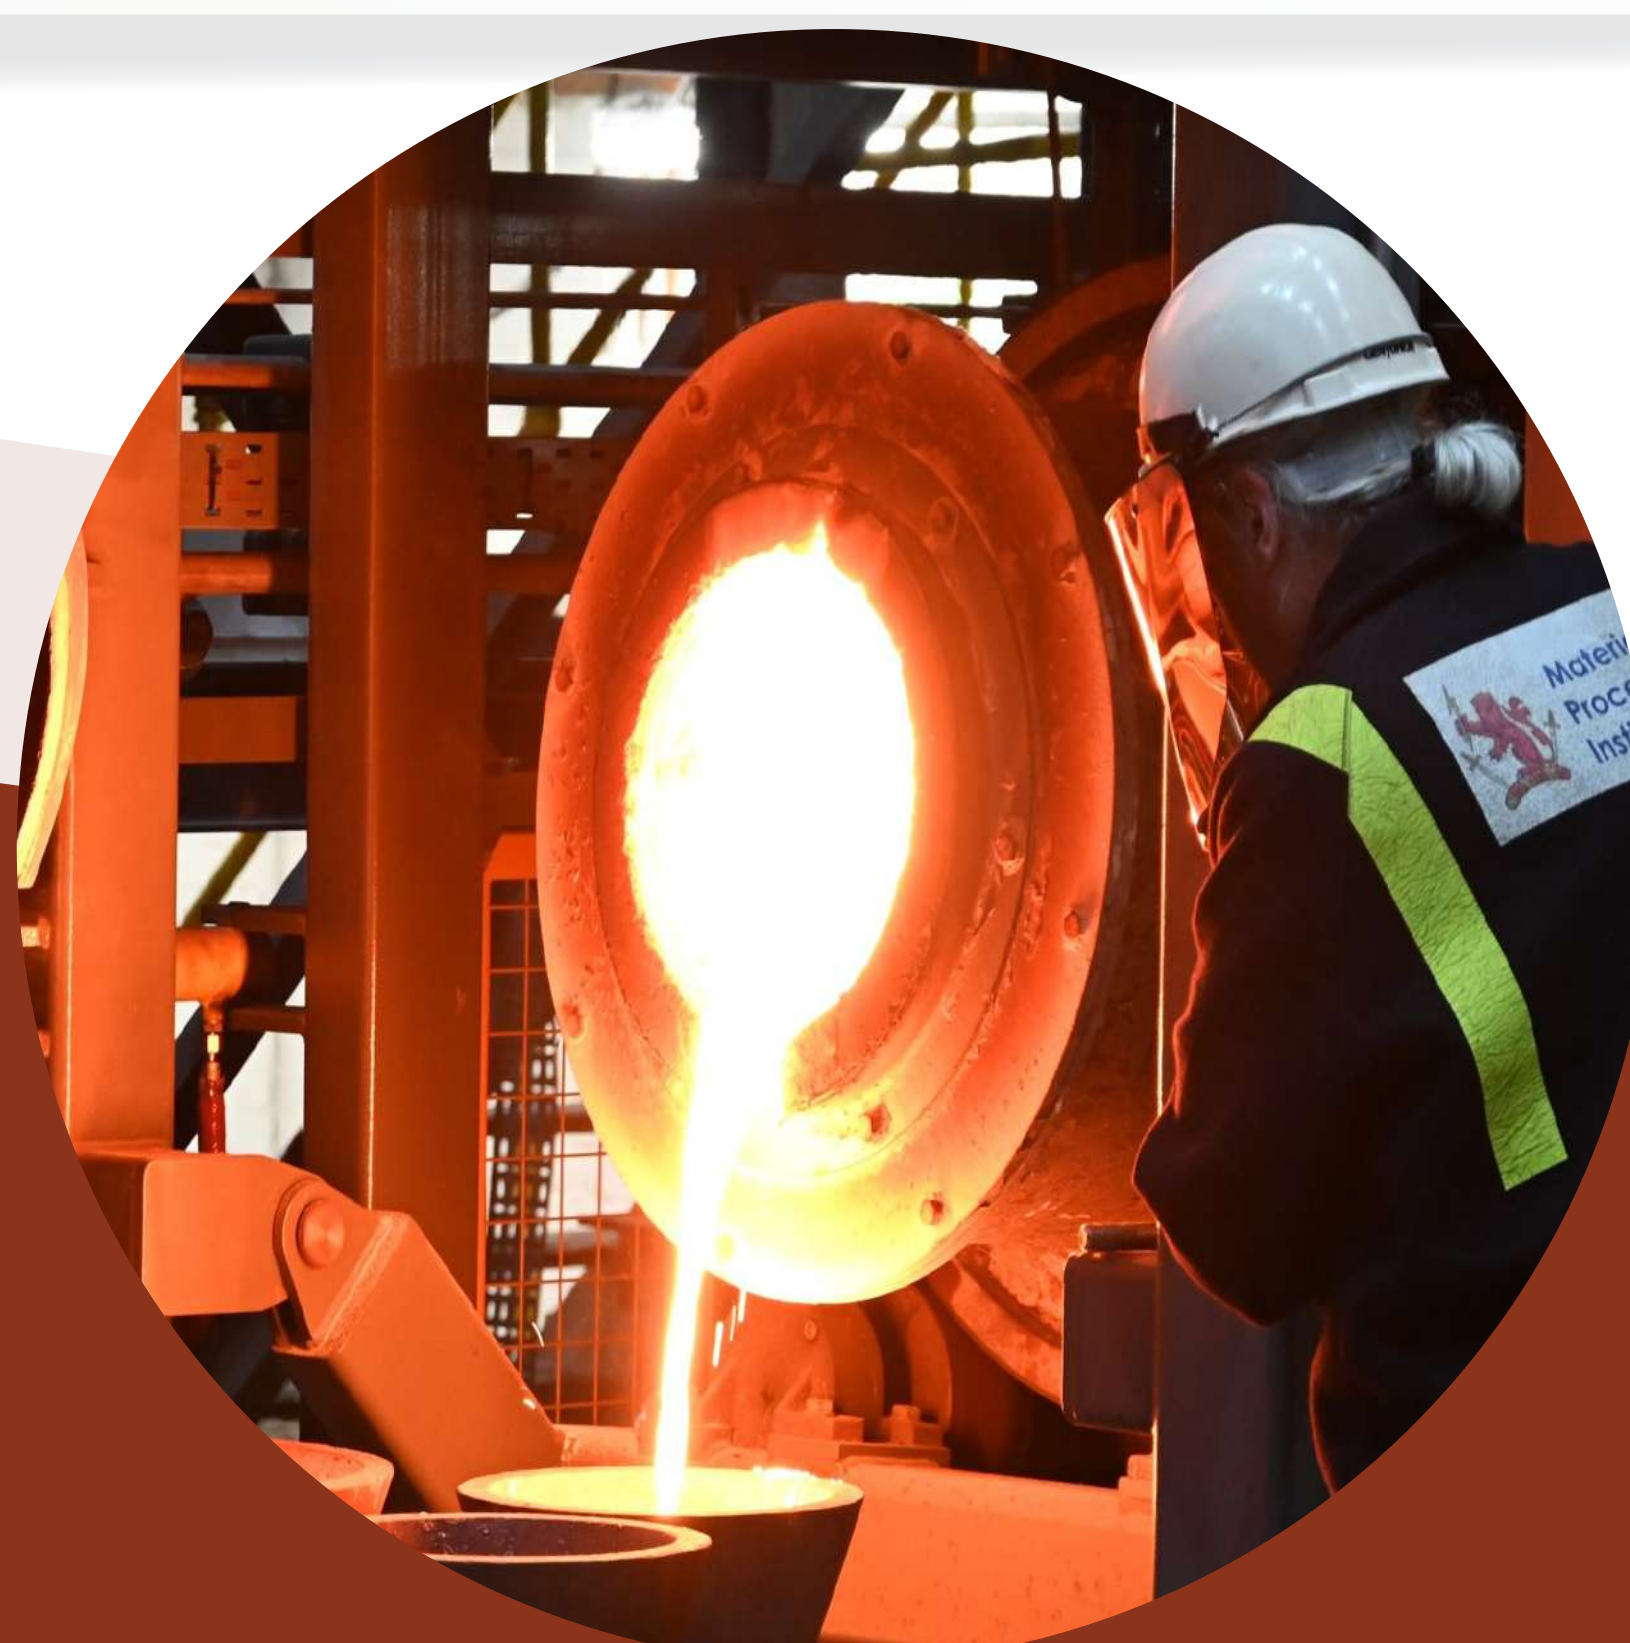

Hydrometallurgy & leaching: metal & rare-earth recovery

Pyrometallurgy: smelting, melting, casting

Recycling & circular economy: scrap & e-waste recovery

Advanced materials & manufacturing: alloys, coatings, additive manufacturing

Digitalization & process optimization
